3351R Motor Assembly

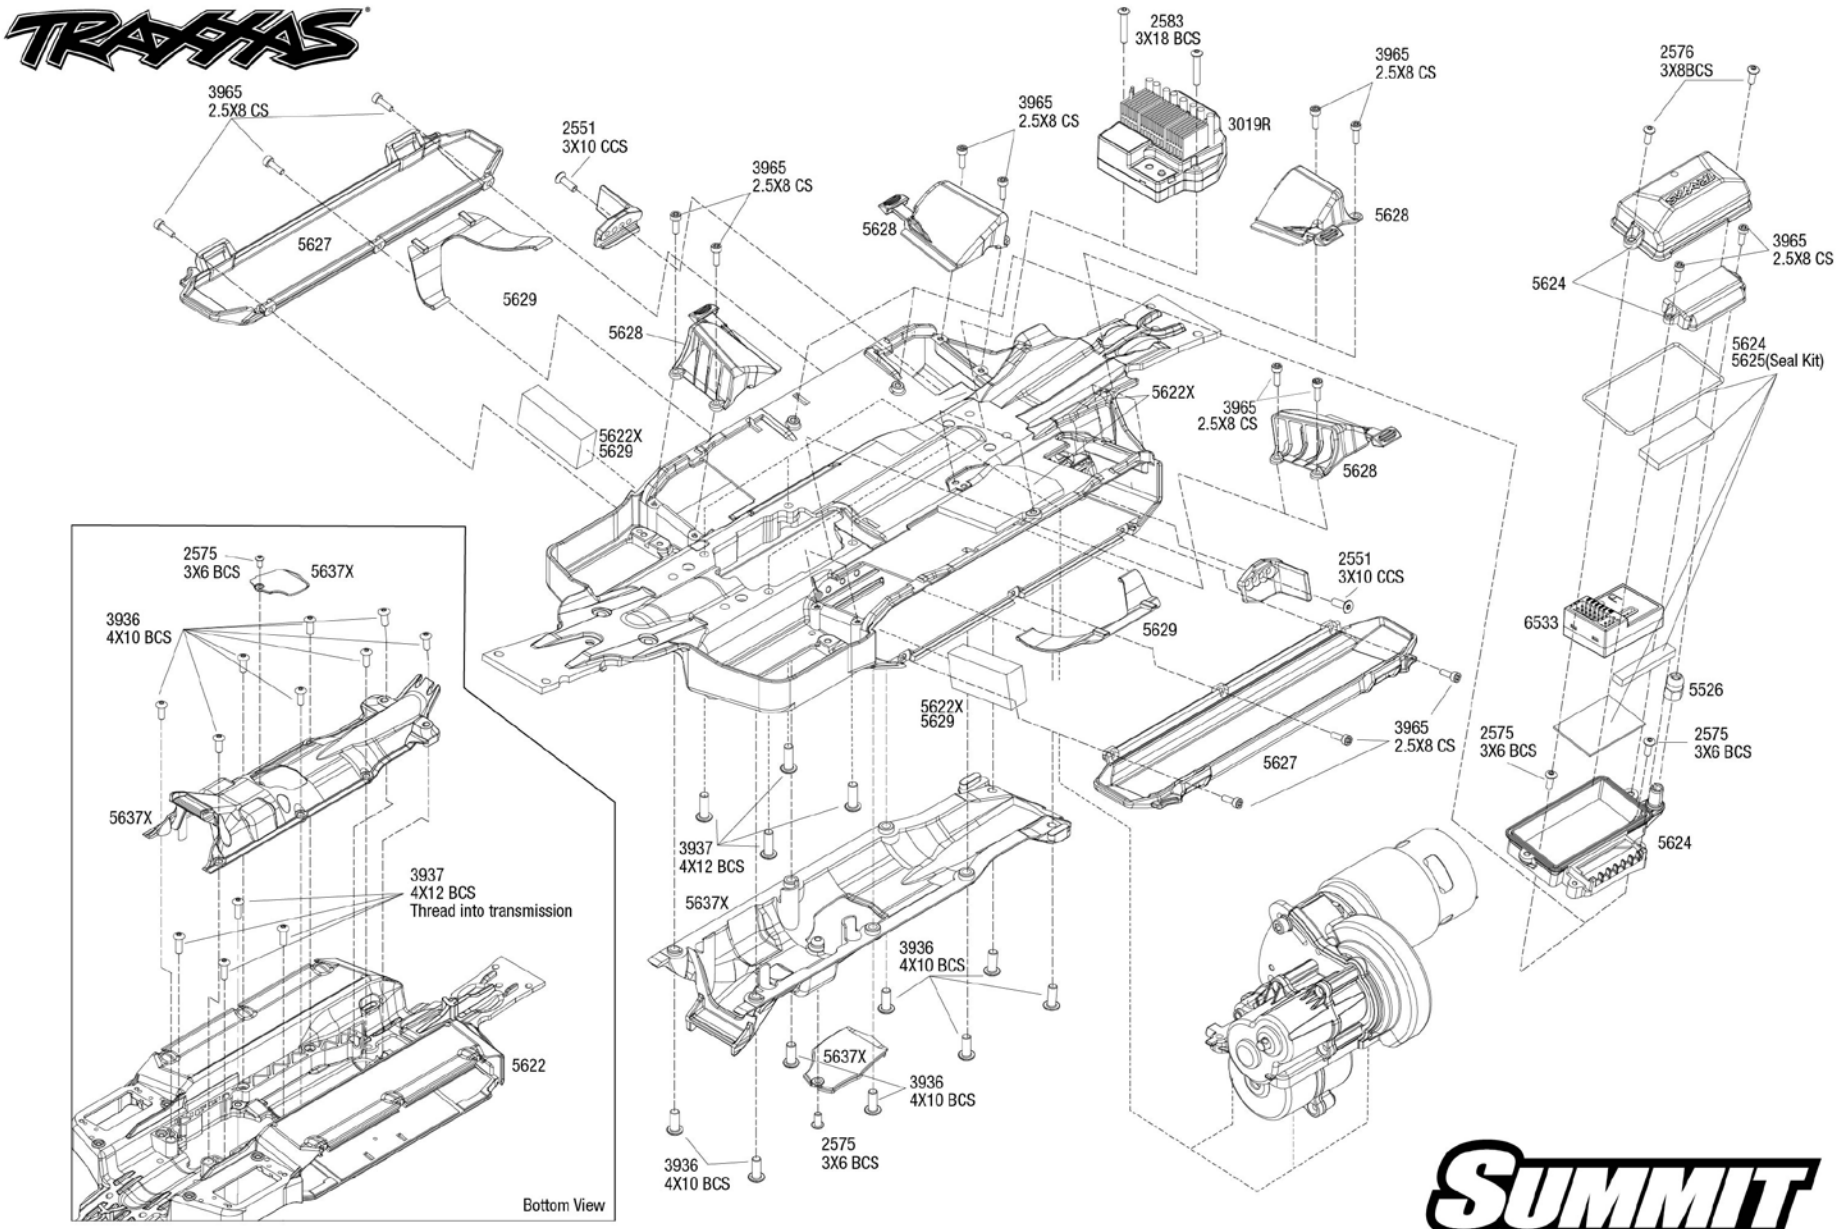

*** Motor Spacer Note:** To achieve the correct rotor end-play, your motor may have been fitted with a thin spacer on the rotor shaft. The spacer is installed at the factory only if required, so your motor may not have a spacer. If your motor is equipped with a spacer, reinstall it when you reassemble the motor. If your motor is not equipped with a spacer, then it is not required and a spacer should not be installed.
